Lake Lytal Named President State Co. Commissioners

County Commissioner Lake Lytal has been named president of the State Association of County Commissioners, moving up from a post of vice president in the organization.

Lytal has been a member of the association during the more than 20 years he has been a commissioner. During that time he has served on nearly every one of the association's major committees.

Lytal, who is the dean of the Palm Beach County Commission, because of his long time association with the county commissioners state organization, has been picked many times to represent the association on state committees named by the Governor.

Among those on which he now serves is the Governor's Uniform Traffic Committee, Committee to study problems of the aged, hospital advisory committee and a state committee on retirement and pensions.

The new president won his way to the top of the association on his record of service to the group, his colleagues reported. Lytal's vast experience gained through his many years as a commissioner has made him an outstanding member of the state organization and in the past he has been called on to serve as speaker and panel director on many phases of county operation.

In Palm Beach County Lytal's interest has always been high for operation of the county home and hospital and the county welfare program. This has led to his appointment on a number of association committees.

His interest in county road building and projection for future roads, has led to his appointment to committees in this field.

Said Commissioner Paul Rardin this week, "Lytal's selection is his just reward for his efforts of the past."

The plans are to have all things out of the way so that the workers will be able to leave the church by 1:00 P. M.

The Glades Observer of October 17th will carry a facsimile of the survey card that will be used, and we urge our people to use this to help us complete the survey in good order.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

The Palm Beach County Commission Monday authorized payment to the World Fair Authority for exhibitors space at the next world fair.

The space is destined for use as a county wide display to sell Palm Beach County to fair visitors.

The county budget calls for a \$30,000 expenditure which will pay for the exhibit the two years the fair is in operation.

In other actions this week the commission:

Approved stepping up the speed limit on Lake Osborne Road from 25 to 35 miles an hour.

Voted to build a 700 foot extension on the north end of Voss Road providing an 80 foot set back is established by the town of Mangonia Park for the road.

Authorized a call for bids for 2,000 feet of dredge pipe, estimated to cost \$5,000.

A Tallahassee circuit court hearing Friday will be the next round in Palm Beach County's legal action to upset a new legislative act which divides Lake Okeechobee between five bordering counties.

Division of the lake is reflected in distribution of gasoline taxes and under the new law, Palm Beach County stands to lose money.

The coming hearing is on a motion to dismiss the county's suit—a motion filed in behalf of the other four counties involved in the suit.

The commission learned this week that a trust fund had been established to carry gasoline funds in question and will be held until the court action is settled.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
U.S. SAVINGS BONDS

Truck Terminal Causes Yow-Yow

Operation of a truck terminal on Okeechobee Road for vehicles engaged in hauling liquid fuel for the airforce was subject of a lengthy complaint session before the county commission Monday.

The trucking firm was identified as the Asbury Transportation Co., a national firm reportedly hauling cargo from coast to coast.

Attorneys for the truck company and a group of residents stated their case for the commission and were then advised by County Attorney Harry Johnston that the commission had no jurisdiction in the case.

Residents declared maintenance of trucks, blowing of truck tanks, and the fact that the cargo carried in the trucks was reportedly of a highly inflammable nature, creates a hazard and a nuisance, plus the fact residents are losing sleep because of noise from the 24 hour a day operation.

The county zoning commission has received numerous complaints of similar nature from the residents and zoning director Bernie Munsey said an investigation revealed that the firm was not operating in violation of county zoning statutes.

The firm's attorney said his client was willing to do what ever was possible to be a good neighbor and that it had already taken steps to try and control noise at night and that future efforts in this direction will be undertaken.

Attorneys were advised that if the zoning board declined to reconsider the case the only recourse available to residents was a suit in circuit court.

Electric Companies Set \$160 Million Construction For 1964

Florida's four investor-owned, tax-paying, electric utilities have announced a combined construction budget of more than \$160 million for 1964 and a total construction budget of well over \$435 million for the next three years. This total expenditure will bring the companies' combined plant investment to almost \$2 billion by the end of 1966.

Each year the tax bite of individuals and businesses in Florida is much less than it might be because of the large share paid by the state's four investor-owned electric utility companies.

The companies, Florida Power Corp., Florida Power & Light Co., Gulf Power Co., and Tampa Electric Co., have recently released a booklet entitled "Electric Utility Growth . . . Moves Florida Forward" which points out that in 1962 more than \$85 million was paid by them in local, county, state and federal taxes.

Surprising was the fact that though the electric companies have an enormous yearly payroll (\$58 million in 1962) which goes directly into Florida's economy—their tax bill was 46 percent higher than their total payroll last year.

Growth is the keynote of the publication and the booklet indicates how the four companies' growth and the state's growth go hand-in-hand. In the last 10 years, Florida's investor-owned electric companies have added over a half-million new customers, or an increase of approximately 90 percent over the previous 10 years, while the nation as a whole increased only 29 percent.

Copies of the eye-opening booklet may be obtained free of charge by writing to Electric, P. O. Box 10273, Tampa 9, Florida.

Miss Jane Brackett was maid of honor, and bridesmaids were Miss Carolyn Gerlock of Fairburn, Ga. and Miss Alice Collins of Waycross. The three attendants wore sheaths of willow satin with back drapes, and matching pillboxes with circular veils. They carried bouquets of bronze chrysanthemums.

Christian Science Group Of Canal Point

The obliteration of evil in the redemptive and healing work of Christ will be emphasized at all Christian Science churches this Sunday.

Scriptural readings include this verse from Ephesians (5:8): "For ye were sometimes darkness, but now are ye light in the Lord: walk as children of light."

A related passage from the Christian Science textbook will be read: "Let unselfishness, goodness, mercy, justice, health, holiness, love—the kingdom of heaven—reign within us, and sin, disease, and death will diminish until they finally disappear" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 248).

The Bible Lesson is entitled: "Are Sin, Disease, and Death Real?"
